

Environmental Policy

UNITED KINGDOM

Colas Limited is an intelligent service provider for the design, building and maintenance of transport infrastructure. Effective management of environmental issues remains central to the delivery of our corporate strategy and, as a responsible organisation, we are committed to achieving the highest standards of environmental sustainability and legislative compliance to reduce our environmental impact and prevent pollution.

We deliver this through:

- Ensuring the effective implementation of our Environmental Management System (EMS), meeting the requirements of ISO14001, throughout the organisation.
- Assessing all activities, products and services to identify environmental aspects and applying robust control measures to minimise our impact on the environment and prevent pollution; working to protect and where possible enhance, natural habitats and biodiversity.
- Identifying our compliance obligations and understanding their relevance to ensure we meet those requirements by working proactively with regulators and stakeholders to build effective open relationships.
- Following the principles of the waste hierarchy to ensure we use resources wisely, reduce waste and minimise disposal to landfill.
- Reducing greenhouse gas emissions through the effective management of fuel and energy use; utilising technology to improve efficiency and alternative energy sources where viable to reduce demand on finite resources.
- Training our people to ensure their awareness of environmental issues, developing their ability to contribute to our environmental objectives and achieve our targets.
- Working with our suppliers and subcontractors to ensure our values, ethics and culture are upheld throughout the supply chain and to manage the whole-life impact of our operations.
- Innovation by combining the strength of our own expertise and the extensive research facilities of the International Colas Group to develop pioneering, sustainable products and services for our customers.

We have a responsibility to all our stakeholders to minimise the environmental impact of our operations and a passion to develop sustainable solutions to protect our future, adapting the way we work to deal with the challenges ahead and the risks and opportunities these present. This policy provides the framework for our environmental targets, against which we shall monitor performance ensuring we go further to deliver continual improvement for the benefit of Colas, our stakeholders and the environment, for both the present and the future. This policy will be communicated throughout the organisation and is readily available to interested parties on request.
