

DANIEL JONES

ICT Manager, Transport Manager & Facilities Manager

Started February 2011

« Over the years I have had many challenges along the way, a few of which have been noteworthy, such as when I managed to get Allied Infrastructure to the FORS Gold Standard, something I will be doing again this year.

I've also had a few proud moments, such as passing my Transport Managers CPC International certificate with the addition of CVFMQ award. Another would be passing my ILM Level 5 in Leadership & Management a few years. It's been an interesting journey over the last ten years, from starting with the family business to finally becoming part of Colas in 2017.
